this fully revised and updated version of anthony giddens s sociology now in its fifth edition offers an unrivalled introduction for students new to the subject lucid lively authoritative and original written by one of the world s leading sociologists this comprehensive textbook manages to be clear accessible and jargon free but without oversimplifying complex debates earlier editions of sociology broke new ground by incorporating cutting edge debates such as the impact of globalisation into an introductory text this fifth edition remains a state of the art textbook with fresh and engaging new material added throughout while covering all of the core topics of

sociology the fifth edition also includes a great deal of substantive new material ensuring that students are introduced to the most recent sociological debates throughout the book weaves together classical and contemporary theory and data and provides a wide range of everyday examples to which students can easily relate the fifth edition also benefits from new discussions of global inequality disability ageing and the life course risk the network society and terrorism as well as many other additional and up to date topics numerous learning aids in every chapter such as summary points questions for further thought and additional reading suggestions which help to reinforce students knowledge lots of extra photographs diagrams case studies and cartoons to bring ideas to life and fire students imaginations high quality supplementary resources on a dedicated website including a full instructors manual and additional student aids all specially designed to stimulate students learning and critical thinking the fifth edition of this classic textbook is an ideal teaching text for first year university and college courses and will be essential reading for all students who are looking for an exciting authoritative and easy to follow introduction to sociology please visit the accompanying website at polity.co.uk/giddens5

is there a future for sociology to many sociology seems to have lost its way born of the ideas of auguste comte in the nineteenth century sociology established itself as the science of modernity linked to a progressive view of history yet today the idea of progress has more or less collapsed with its demise some say sociological thought has moved to the margins of contemporary intellectual culture in this book the author challenges such an interpretation showing that sociology continues to hold a central position within the social sciences looking both to the past of sociology and the diversity of intellectual trends found in the present day giddens explores many aspects of the sociological heritage comte durkheim parsons marshall and habermas are among the figures covered giddens also connects sociological work directly to current political issues and places the discipline of sociology in the context of broad questions of social and political theory this book will be of interest to undergraduates and professionals in the fields of sociology anthropology and political science

from gender theories to the emergence of an underclass anthony giddens selection of contributions maintains a distinctive approach to sociology with its readable and lively style

anthony giddens has made original contributions to the fields of social theory political sociology the sociology of stratifications suicide this set includes carefully selected secondary articles which bring out the scope of his work

this is a new and revised edition of a book which has already established itself as a basic text in social theory the first section of the work provides a concise critical analysis of some leading schools of thought in social philosophy giving particular attention to phenomenology ethnomethodology and wittgensteinian thought

Giddens concentrates primarily upon the implications of these various perspectives for an account of human action and its intelligibility. An action approach on its own however will not do in human social life. Action and structure presuppose one another. The author therefore moves on to provide a series of concepts relevant to understanding the production and reproduction of society. The book concludes with a succinct statement of some new rules of sociological method representing the first and most trenchant exposition of the principles of structuration theory. This edition also contains a substantial new introduction in which Giddens replies to some of the more persistent criticisms made of the original version and also addresses some important issues originally discussed only in a cursory way.

Anthony Giddens is one of the world's most prominent and prolific sociologists and yet he is also a difficult study for the beginning student of sociology. This is the first introduction to the work of Giddens including the major part of his sociological and social theoretical project. The author traces Giddens' development from the late sixties to the nineties in a straightforward readable style covering all parts of Giddens' sociology in a well arranged summary. Also featured is a lengthy interview with Giddens by the author and the most comprehensive Giddens bibliography to date.

It is likely that this book will be regarded as the most important piece of grand sociological theory in English of the past decade. Mark Poster, University of California. This book will take its place alongside such major statements of sociological theory as those of Parsons and Habermas. Anyone interested in the state of the social sciences today, the character of social theory or the relevance of philosophy to social theory will now find it essential to grapple with Giddens' bold and incisive book. Richard Bernstein, Haverford College, USA. Anthony Giddens' new book is the fullest presentation yet of his theoretical views. It has the lean, sparse, utterly serious, craftsmanlike qualities we have learned to expect from its author and which make it a real pleasure to read. Dennis Wrong, Times Higher Education Supplement.

Social life is in a constant process of change and sociology cannot afford to stand still. Sociology today is theoretically diverse, covers a huge range of subjects and draws on a broad array of research methods. Central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts is constantly evolving and changing. This clear and jargon-free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so. Going beyond brief dictionary-style definitions, Anthony Giddens and Philip W. Sutton provide an extended discussion of each concept which sets it into historical and theoretical context, explores its main meanings in use, introduces some relevant criticisms and points readers to its ongoing development in contemporary research and theorizing. Organized in ten thematic sections, the book offers a portrait of sociology through its essential concepts ranging from capitalism, identity and deviance to citizenship, the environment and intersectionality. It will be essential reading for all those new to sociology as well as those seeking a reliable route map for a rapidly changing world.

sociology a brief but critical introduction offers a lively discursive and jargon free introduction to sociology accessible to the lay reader as well as to the student it incorporates discussion of recent developments in both social theory and empirical social research developments to which giddens has directly contributed

regarded as the most authoritative introduction to contemporary sociology essentials of sociology adds a new author to its team with the second edition

the textbook and readings that teach students how issues in our global society connect to their own lives

anthony giddens is one of the most famous and influential sociologists of recent decades largely credited with the concept of the third way he continues to be a key advisor to tony blair and is generally presented as an exponent of liberalism and socialism this book provides a controversial introduction to giddens work covering the wide range of his writing from theory to self reflexivity modernity and politics placing them all within the illuminating framework of a historical context giddens writing has always embodied a political and ethical position one that has changed considerably over the years and is best understood through the social context in which it was written his work in the 1970s attempted to marry liberalism and socialism but following the collapse of communism in the 1990 east european revolutions his world view became liberal rather than socialist and his later work on reflexivity and the third way embodies this loyal explores how this world view accounts for many tensions and failures in giddens theory and that overall his work is fundamentally flawed

now available in a discounted bundle buy the exciting new sixth edition of anthony giddens s sociology alongside the specially tailored and revised selection of key sociological works in sociology introductory readings the main textbook provides an authoritative overview of recent global developments and new ideas in sociology classic debates are also given careful coverage with even the most complex ideas explained in an engaging way the reader offers a stimulating and wide ranging set of readings to enable students to get to grips with original sociological thinking a strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively yet remains challenging together the two books provide an engaging and thorough introduction to the full scope of sociology a comprehensive resource for all students for additional support and material please visit the accompanying website at politybooks.com/giddens6

anthony giddens has been described as the most important english social philosopher of our time over twenty five years and even more books he has established himself as the most widely read and widely cited social theorist of his generation his ideas have profoundly influenced the writing and teaching of sociology and social theory throughout the english speaking world in recent years his writing has become much more explicitly political and in 1996 he took up his high profile appointment

as director of the London School of Economics and Political Science it is in this new position and with these new political ideas that he has been described as the key intellectual figure of New Labour in Britain following the astonishing success of Labour in the 1997 general election his ideas have been the focus of intense interest in this series of extended interviews with Chris Pierson Giddens lays out with customary clarity and directness the principal themes in the development of his social theory and the distinctive political agenda which he recommends this volume will be of great interest to second and third year students in sociology and social theory politics and political theory as well as to the general reader

In this book Anthony Giddens addresses a range of issues concerning current developments in social theory relating them to the prospects for sociology in the closing decades of the twentieth century composed of closely integrated papers all written over the past few years the book includes seven essays not previously published plus two have not appeared in English before in assessing the likely future evolution of sociology in particular and the social sciences in general the author both draws upon ideas established in his more abstract theoretical writings and examines critically competing traditions of thought those looking for an accessible introduction to Giddens's writing will find in this book a set of clear expositions of his basic ideas by situating these ideas in relation to the critical assessment of the views of others however the author provides new sources of insight into the distinctiveness of his own claims

Das Ende des Staates zu verkünden hat im politischen und sozialwissenschaftlichen Diskurs Tradition und so gilt staatliches Handeln seit der enttäuschten Planungseuphorie der 1970er Jahre als Synonym für Unzulänglichkeit und Ineffektivität mit dem Siegeszug der neoliberalen Ideologie hat sich der Ton weiter verschärft in der aktuellen Globalisierungsdebatte gilt der Staat zumeist als Verlierer in der Auseinandersetzung mit dem Markt um die Vorherrschaft auf den Kommandohöhen der Weltwirtschaft und als Opfer sich naturwüchsig vollziehender Prozesse die vorliegende Studie widerspricht dieser Vorstellung und lässt sich von der Annahme leiten dass der Staat ein wichtiger Akteur ist dessen Strategien Interventionsmaßnahmen und Regulierungen immer schon das Verhältnis der Beziehungen zwischen Staat Ökonomie und Gemeinschaft prägen in dieser Perspektive rückt das Handeln des Staates in den Mittelpunkt des Interesses aber wie handelt der Staat um diese Frage zu beantworten wird im Anschluss an die kritische Diskussion aktueller soziologischer Ansätze die auf die Erklärung sozialen Handelns sozialer Organisation und sozialen Wandels gerichtet sind eine Theorie mittlerer Reichweite von State Society Relations entwickelt sie ermöglicht es die sozialen Mechanismen staatlichen Handelns zu identifizieren und trägt damit zur Erklärung staatlichen Handelns bei

Das Kompendium der Soziologie besteht aus drei Bänden im ersten Band werden die Grundbegriffe der Soziologie dargestellt der zweite Band behandelt die Klassiker der Soziologie von Auguste Comte bis Talcott Parsons der dritte Band präsentiert die wichtigsten soziologischen Theorieansätze der letzten 50 Jahre von Erving Goffman bis

in die gegenwart dieses lehrbuch bietet eine kompakte systematische und verständliche einföhrung in die soziologie auf diese weise gelingt ein hervorragender einstieg in das fach und wird ein fundierter umfassender Überblick ermöglicht

the studies which comprise this book are essentially organized around a critical encounter with european social theory in its classical period i e from the middle years of the nineteenth century until the first world war and have the aim of working out some of the implications of that encounter for the position and prospects of the social sciences today the issues involved relate to the following series of problems method and epistemology social development and transformation the origins of sociology in nineteenth century social theory and the status of social science as critique in each of these areas giddens develops views that challenge existing orthodoxies and connects these ideas to a reconstruction of social theory in the contemporary era

an introduction to the work of anthony giddens and a critical discussion of his ideas it sets out the background to and sources for giddens development of structuration theory and describes the main features of his theory
